Shaye Ellerbe

ABOUT ME

Application management professional moving into product design, with a background in performing arts, film production, and front-end development. I build interactive prototypes and create training and visual materials that help people use workplace technology.

PROFESSIONAL EXPERIENCE

Technical Associate

ALLY BANK *MAY 2023 - PRESENT*

- **Application management:** Help manage workplace applications by tracking certification deadlines and vulnerability remediation items, and keeping subject matter experts informed of required actions.
- **Creative enablement:** Created interactive training in Articulate, produced a Secure Print training video, and developed documentation and physical and digital signage to guide employees through workplace technology.
- **Visual design:** Designed conference room screensavers tailored to individual U.S. office locations and received positive feedback on the localized designs.
- **AV support:** Support live events by operating cameras and microphones

Software Development Apprentice

ROAD TO HIRE *NOV 2022 - MAY 2023*

- Built responsive, accessible web pages with HTML, CSS, and JavaScript. Collaborated on a team software project and participated in code reviews while using Git for version control.
